Committee: WHO

Topic: Regulating AI in Healthcare & Medical Diagnostics

Main Question: How should governments and international institutions regulate the use of artificial intelligence in healthcare and medical diagnostics?

Delegate Information

Country/Delegation: _____

Delegate Name: _____

Committee: WHO

1. Country Position

Explain your country's general position on the use and regulation of artificial intelligence in healthcare and medical diagnostics.

Consider:

- How does your country currently view AI in healthcare?
- What benefits does your country see in using AI?
- What concerns does your country have?
- What principles should guide international regulation?

2. Key Concerns

Identify the main issues your country believes should be addressed.

You may discuss areas such as:

- Patient data privacy
- AI safety and reliability
- Bias and discrimination
- Human oversight
- Accountability for AI-assisted decisions

3. Previous Actions & Policies

Describe relevant actions your country has taken regarding AI, healthcare, medical technology, data protection, or related areas.

You may include:

- Existing laws or regulations
- Government policies
- Relevant programs or initiatives

4. Proposed Solutions

What solutions would your country support at the international level?

Explain **specific and realistic measures** rather than simply stating that AI should be “regulated.”

Consider:

- International guidelines or standards
- Safety testing and certification
- Human oversight requirements
- Data protection measures
- Transparency requirements
- Bias testing
- International cooperation
- Support for developing countries

5. Bloc & Resolution Priorities

Identify **2–4 priorities** your delegation would like to see included in a working paper or draft resolution.

Priority 1: _____

6. Sources

List the reliable sources used to research your country's position.

Examples:

- Government websites
- United Nations agencies
- World Health Organization
- Official legislation
- Academic research

- International organizations
